---

## Author Guidelines

---

1. Articles should be written in American English between approximately 5000-7000 words, including text, all tables and figures, notes, references, and appendices intended for publication. Article must be sent through Online Journal System (OJS): <http://jurnalpps.uinsby.ac.id/index.php/sosioyustisia/index>
2. All submissions must include 150-200 words abstract and four keywords. Quotations, passages, and words in local or foreign languages should be translated into English. *SOSIO YUSTISIA Jurnal Hukum dan Perubahan Sosial* accepts only electronic submissions.
3. The writing system for research outcome consists of:

### Title

The title should not exceed 14 words; it should be clear, concise, and informative. Abbreviations should be avoided.

### Name of the author

The name of the author is written without any academic degree, followed by the author's email, located under the title of the article. In case manuscript written by a team, the editor is only in contact with the main author or the first mentioned author. The main author must include his/her correspondence address or email.

### Abstract

Write down here your paper's abstract in one paragraph, in the Italic style of font, no more than 200 words. The abstract is not an

"introduction", nor the conclusion of the discussion. Instead, it should contain, but not limited to: (1) the main question and the background of the discussed issue; (2) the research position; (3) how the question is discussed in the paper; and (4) the main result of the discussion. Other important matters discussed in the paper that significantly contribute to the final result of the research may be noted here, but you have to consider, however, the limited space of the abstract.

**Keywords:** mention only specific concepts [word or phrase], 4 concepts, truly conceptual words, and not too general ones.

### **Introduction [the First Section must be "Introduction"; Typed in Bold, List-style with ABCs Alphabets]**

Your text is here, in 12pt font-size, 1 line-spacing; don't add space before and/or after paragraph. It is much better not to format your text in a specific technique. Instead, just leave it plain except that you really need to type certain words in a "special method", or to emphasize certain word or words. Italic is a must in typing a non-English word. The Arabic word is transliterated based on *SOSIO YUSTISIA Jurnal Hukum dan Perubahan Sosial* style, which is available for download in PDF file.

Please explore, in more words, the background of your paper and your current research position, among other research on related themes. You should discuss here as well your research's relations with those of other researchers; literature review, especially on most relevant, newly academic works published in high reputation journals, is a must.

To put it another way, please try to answer at least two questions: (1) why you believe that your research question is such an important to answer; and (2) how other scholars have or have not answered, or how you think your answer would be a contribution to the existing scholarship on the subject.

A detailed description of your methods in doing the research is not necessary to write down in this section, but you may mention it slightly in one or two sentences if you think you have to do so.

A little bit of exploration of your discussion flows and the expected final results will be good points for closing this introduction section.

### **The First Aspect of the Discussion, As the Second Section**

Here you may discuss every aspect of the issue one by one. It is necessary to build an argument and provide original data discussed and

compared to other scholars' research and works. In other words, the way to discuss an issue here is by combining the data and the discussion. So, it is not recommended to separate merely data description from the analysis on it.

Every quotation is written down in a specific way that can be identified as a "quotation" different from your original text. At the end of every quotation, you have to put its reference[s] in the footnote style of *SOSIO YUSTISIA Jurnal Hukum dan Perubahan Sosial*. A reference must also be put at the end of every citation that paraphrasing ideas from someone's works. If a citation is taken from a book, it must be like this,<sup>1</sup> and the subsequent citation is like this.<sup>2</sup> A book with volumes<sup>3</sup> cited in a subsequent note;<sup>4</sup> please note that the footnote reference number is placed after [not before] any punctuation. Citations from any previous references, but not subsequently cited, are noted like this.<sup>5</sup> Just mention the last name of the author and the sorted version of the work's title.

### **The Third Aspect of the Discussion, and so on**

It is possible to add sections as needed. A section may consist of several sub-sections, typed in bold-italic and numbered list style, like the following example.

#### **1. *Sub-Section as Part of its Parent Section***

You do not need to add any special indentation in typing body text under the sub-section heading. The body text here is typed, just like any other body text.

#### **2. *Another Sub-Section***

Although you may need another sub-heading under this “sub-section”, it is strongly not recommended to do so. Instead, please arrange your discussion and explanation in narrative paragraphs. In addition, the listing style of the text paragraph is also not suggested.
